

Nano Energy Wand - Zero Point Healing

ABOUT THE NANO ENERGY AM-WAND ZERO POINT HEALING WAND

The Nano Energy wand looks like an ordinary pen, but to much surprise it contains a mixture of minerals intended to improve your well being. Based on zero-point energy principles, the wand works on individual cells within the body, specifically targeting the immune and nervous systems.

This product is geared toward animals and humans alike. Nano Energy Wand helps unblock the energy channels within the body's meridian, hence expediting the healing process and increasing overall health.

The Nano Wand contains 11 minerals, as well as crystals, it essentially tunes into zero point energy, similar to a radio, and focuses that energy. It can be used to balance the body's chi, vastly speed the healing process, and increase the immune system's fighting ability. To test results palm up and do circles on finger tips and palm as close to the skin as possible to feel the energy.

Usage and Benefits:

The company shares that the wand holds the following benefits:

- Discharges blockage in the body by allowing the life force to flow freely
- Removes any distortion on the bioenergetic force
- Causes your cells to begin “self-healing”
- Increases the natural potency of minerals and vitamins found in food, by working on the nutrients within them
- Corrects imbalances in the body
- Helps relieve aches, pains and discomfort
- Use it on your plants to supplement any energy deficiencies that they may have
- Helps to remove aches, pains and discomforts from accidents, arthritis, bruises, nasal passage blockage, tinnitus, tendinitis and virtually any other pain you may be experiencing.
- Put it under your pillow for a great night’s sleep
- Stir your drinks with the wand and it will energize the liquids. The zero-point resonance charges it and neutralizes any foreign substances that are not needed by the body
- Helps the body to release toxins so they can be flushed out

To use on your companion animals:

Point the wand towards the affected area (for example an arthritic joint, etc.) and rotate the wand in a clockwise motion 3 to 18 times. To see better results, point it as close as possible to the affected area hovering over the skin.

To unblock energy fields:

Press the wand in between your animal's toepads.

EFFECTS OF NEGATIVE IONS ON THE BODY

Negative ions are beneficial to human body in four major ways:

Reprinted from "Economy Daily News" - January 30, 2002

- Strengthen the functions of autonomic nerves
- Reinforces collagen (tissues that are resilient and tension-related)
- Improves the permeability of the cell's prototype plasma membranes (improves metabolism)
- Strengthens the body's immune system

Negative ion regeneration for youthfulness and longevity

by John Heinerman, Ph.D.

Negative ions neutralize pollutants and provide positive effects on health to

- Stimulate the reticulo-endothelial system, a group of defense cells in our bodies that marshal our resistance to disease
- Act on our capacity to absorb and utilize oxygen. Negative ions in the bloodstream accelerate the delivery of oxygen to our cells and tissues
- Speed up oxidation of serotonin (5-hydroxytryptamine) in the blood. This is well known to have far reaching effects on mood, pain relief and sexual drive.

How Negative Ion Affects the Human Body?

Dr. Robert O. Becker, pioneering researcher and author of the book, *The Body Electric and Cross Currents*, has established that energy system within our bodies consists of two forces, magnetism and electricity, with the electricity component consisting of low-frequency direct-current (DC) electric field. This electromagnetic energy system is affected by the earth's natural electromagnetic environment, which is normally relatively quiet, with minor rhythmic variations, but which experiences great increase in an electromagnetic charged environment.

Numerous studies have established the effect of Negative Charged Ion environment on the human body. The negative charged environment has stimulated the body's own healing mechanism in the case of stress and specific physical problems.

Increase blood flow with resultant increased oxygen-carrying capacity, both of which are basic to help the body healing itself;

Changes in migration of calcium ions which can either bring calcium ions to heal a broken bone in half the usual time, or can help move calcium away from painful, arthritic joints;

The pH balance (acid/alkaline) of various body fluids. (Often out of balance in conjunction with illness or abnormal conditions)
